

# Navy 4-Leg RIB Boat Slings

These slings were developed in conjunction with NSWC Carderock Division to handle RIB Boats. The initial goal was to eliminate wire rope from existing slings, reducing electronic interference, corrosion, wire fish hooks and generally engineering a safer system. The results from the well thought out stainless lift ring with hand holds and tested/certified welds, to the Aracom T Battleship gray Maxijacketed legs, each individually capable of 34,000 pounds, and the heavy duty stainless thimbles, all speak to solid craftsmanship. The individual legs are spliced here in Maine to very tight tolerances, tagged fore and aft to maintain balance, and every sling is proof loaded and shipped with a complete documentation package.

The Yale part numbers for the most popular slings along with their supporting government drawing numbers are listed to the right.

*Aracom T is a registered trademark of Yale Cordage covering Aramid-Composite rope structures.*

Other sizes available upon request. Call or e-mail:

Part Number: **95124NAVY00001**  
5.4m Rib Boat Sling - 3/8" Aramid  
DWG# 5107544 REV. B

Part Number: **95140NAVY001SA**  
7m Rib Boat Short Sling - 5/8" Aramid  
DWG# 601-5106602 REV. F  
Lifting ring includes radiographic testing to  
Class 3 acceptance per MIL STD 2053  
NSN# 3940-LL-H-50-1142

Part Number: **95140NAVY001LA**  
7m Rib Boat Long Sling - 5/8" Aramid  
DWG# 601-5106602 REV. F  
Lifting ring includes radiographic testing to  
Class 3 acceptance per MIL STD 2053  
NSN# 3940-LL-H-50-1143

Part Number: **97240NAVY00001**  
10m Rib Boat Sling - 5/8" Vectran  
DWG# 5107554
